

Strategy Plan 2025 > 2030

 **OUR GOAL:** As the trusted global leader and authority on liver cancer, we provide world-class education and manage the largest multi-disciplinary network worldwide for the benefit of our community and our patients.

ilca-online.org

Education

- ▶ Manage the existing portfolio of educational products, clearly distinguishing between global initiatives and those targeting regional or local audiences.
- ▶ Emphasise a multi-disciplinary, translational focus by enhancing involvement from diverse specialties, nurses, and allied healthcare professionals.
- ▶ Enhance collaboration with partner societies and host ILCA symposia at their meetings.
- ▶ Create an ILCA Multi-Disciplinary Team competency framework and categorise content in an online tool to provide structured learning pathways and courses.
- ▶ Enhance ILCA's thought leadership by producing ILCA Guidances, clinical practice guidelines (CPGs), and expert opinion papers, thereby increasing the output of ILCA-attributed publications in preferred journals.

2028

2030

External Collaboration

- ▶ Partner with key patient organisations to create and implement joint awareness campaigns that educate patients and their families about liver cancer.
- ▶ Establish a patient-centered research partnership between ILCA and leading patient organisations.
- ▶ Involve former ILCA leaders and senior faculty in advocacy initiatives with other medical societies and patient organisations.

Research

- ▶ Initiate and conduct multiple collaborative studies in basic science and translational liver cancer research.
- ▶ Create an ILCA Technology Review to give members an overview of emerging cutting-edge technologies.
- ▶ Compile an ILCA registry of international real-world data (RWD).
